Nicole, thank you for your prompt response. The beginning of week of March 28 (Monday, Tuesday or Wednesday) would work as well for a meeting with the synthetic turf industry. Alternatively, the last two weeks of April would also be available.

Nancy Nord

Hi Nancy,

Thank you for following up with me. We look forward to talking with you and the groups you represent more on this issue. The week of March 21 may work, and is there also an alternative week you could propose? Thank you, and we will aim to get back to you as soon as possible.

Regards,

Nicole

**Subject:** crumb rubber issue: request for meeting

Nicole, we spoke last week about the work your office is doing to reach out to stakeholders on this issue. I represent the Recycled Rubber Council and the Safe Fields Alliance, organizations made up of the manufacturers of rubber mulch and the synthetic turf used on playing fields. These groups as well as the Synthetic Turf Council, the overall association representing the industry, are very anxious to provide whatever help they can to EPA as you carry out your responsibilities under the federal action plan. When we talked, you suggested that a meeting with the synthetic turf industry would be appropriate in the next few weeks. The industry would be very interested in such a meeting and I would like to begin the work to get it scheduled.

Would you and your team be available the week of March 21 for such a meeting? The purpose would be to outline what information the industry has that is relevant to your study, understand what additional information you may be seeking, and provide whatever assistance they can to facilitate this effort. I look forward to hearing from you.

Nancy
